Director, Institute of Chemistry, Technology and Metallurgy
University of Belgrade
Belgrade, Serbia

Date 13. 11. 2026
Ref. № 010-34/366

Dear Dr. Stajić Trošić,

It is our distinct honour and great pleasure to invite you and your colleagues to participate in the International Conference on Fundamental Properties of Matter (FPM-2027) organised by the International Intergovernmental Scientific Research Organization Joint Institute for Nuclear Research (JINR). The event will take place in Dubna on 11–16 May 2027.

Dedicated to the 70th anniversary of JINR, this multi-disciplinary Conference is considered a major scientific event concluding the jubilee year. FPM-2027 offers an opportunity for a wide community of scientists from all over the world to share their most recent achievements in experimental and theoretical studies of the fundamental properties of matter, as well as to get acquainted with the scientific landscape of JINR member and partner countries. The Conference will also provide an expert platform to discuss the historical background and shape the vision for the mission of global international multilateral scientific cooperation in the modern world. The programme will include plenary overview talks and presentations across numerous topical sections thematically aligned with the noble objectives of the International Decade of Sciences for Sustainable Development (IDSSD).

Registration is available at the official conference website http://fpm.jinr.ru, where you can also find the event programme and the most up-to-date details.

We would be grateful if you could share this invitation with your colleagues.

We look forward to welcoming you and your colleagues to the conference!

Yours sincerely,

Grigory Trubnikov
Director
